Document Overview

About This Document

This document outlines the complete system requirements for the **Career Navigator** application. The requirements are divided into two main categories:

Functional Requirements

"What the system **MUST** do"

Non-Functional Requirements

"How the system **SHOULD** behave"

1 Functional Requirements

Functional Requirements

Definition: Functional requirements are the specific behaviors and features requested by the client. They define *what* the system should do and how it should respond to user actions.

User Authentication & Security

FR-01: User Login System

- ✓ Users shall be able to login as **mentors** or **jobseekers**
- ✓ Different user roles shall have different access permissions
- ✓ Login credentials shall be validated against the database
- ✓ Session management shall maintain user state after login

FR-02: Password Management

- ✓ Users shall be able to **edit/change** their password
- ✓ Users shall be able to **modify** their password after initial account creation
- ✓ Password reset functionality shall be available via email
- ✓ Password requirements shall be enforced (minimum length, complexity)

Profile Management

FR-03: Profile Information Entry

- ✓ Users shall be able to enter information about their **academic records**
- ✓ Educational history shall include: institutions, degrees, dates, and GPA
- ✓ Work experience and skills shall be recordable
- ✓ All information shall be stored securely in the database

FR-04: Profile Editing

- ✓ Users shall be able to **edit their profile** at any time
- ✓ Profile changes shall be saved and reflected immediately

- ✓ Users can update personal information, education, and experience
- ✓ Profile picture upload functionality shall be available

FR-05: CV Upload

- ✓ **Jobseekers** shall be able to upload their CV/Resume
- ✓ Supported formats: PDF, DOC, DOCX
- ✓ Maximum file size: 5MB
- ✓ Multiple CV versions can be stored
- ✓ CV shall be accessible for mentor review

Dashboard & Information Viewing

FR-06: User Dashboard

- ✓ Users shall be able to view their information on the **dashboard**
- ✓ Dashboard shall display:
 - Profile summary
 - Academic records
 - Recent activities
 - Notification status
 - Mentor matching progress
- ✓ Dashboard shall provide quick access to key features

FR-07: Mentor Access to Records

- ✓ **Mentors shall have access to jobseekers' records**
- ✓ Access includes:
 - Academic history
 - Work experience
 - Uploaded CVs
 - Career interests
- ✓ Mentor access shall be read-only (cannot modify jobseeker data)
- ✓ Access logs shall be maintained for privacy compliance

Communication Features

FR-08: Messaging System

- ✓ **Users and mentors shall be able to interact through messaging**
- ✓ Real-time chat functionality
- ✓ Message history shall be saved
- ✓ Notifications for new messages
- ✓ File attachments allowed in messages
- ✓ Message read receipts

FR-09: Mentor Request System

- ✓ **Jobseekers shall be able to send requests to mentors**
- ✓ Request types:
 - Career guidance sessions
 - Resume review requests
 - Industry advice consultations
- ✓ Mentors can accept, decline, or reschedule requests
- ✓ Request status tracking (pending, accepted, completed, declined)
- ✓ Calendar integration for scheduling

Notifications

FR-10: Notification System

- ✓ Users shall be able to receive notifications
- ✓ Notification types:
 - Message alerts
 - Request updates
 - Session reminders
 - Career tips and resources
 - System announcements
- ✓ Push notifications for mobile devices
- ✓ Email notifications as backup
- ✓ In-app notification center

Functional Requirements Summary Table

FR ID	Requirement Description	Priority
FR-01	User login as mentor or jobseeker	High
FR-02	Academic records entry	High
FR-03	Profile editing	High
FR-04	Messaging between users and mentors	High
FR-05	Mentor access to jobseeker records	High
FR-06	Dashboard information viewing	Medium
FR-07	Notification receiving	Medium
FR-08	Mentor request sending	High
FR-09	Password editing	High
FR-10	CV upload (jobseekers)	Medium

2 Non-Functional Requirements

Non-Functional Requirements

Definition: Non-functional requirements are quality attributes and constraints not specified by the client but implemented by developers to ensure total system functionality, usability, and reliability.

Availability & Platform Support

NFR-01: Platform Availability

- ✓ The app shall be accessible over **multiple platforms**:
 - **Android** - via Google Play Store
 - **iOS** - via Apple App Store
 - **Windows** - via Web browser or desktop app
- ✓ Responsive design for different screen sizes
- ✓ Consistent user experience across all platforms
- ✓ Cross-platform data synchronization

NFR-02: System Uptime

- ✓ System availability target: **99.9% uptime**
- ✓ Maximum planned downtime: 4 hours per month for maintenance
- ✓ 24/7 accessibility for all users

Security Requirements

NFR-03: Authentication Security

- ✓ **Authentication via login page with:**
 - Email/username and password combination
 - **Verification code sent through email** for 2FA (two-factor authentication)
 - Password strength validation
 - Account lockout after failed attempts
- ✓ Session timeout after 30 minutes of inactivity
- ✓ Secure password storage using hashing (bcrypt/argon2)

NFR-04: Password Protection

- ✓ **Password requirements:**
 - Minimum 8 characters
 - At least one uppercase letter
 - At least one number
 - At least one special character
- ✓ Passwords never stored in plain text
- ✓ HTTPS encryption for all password transmissions
- ✓ Password change requires current password verification

Data Privacy**NFR-05: Privacy Policy & Data Protection**

- ✓ **Privacy policy implementation** where user data is only accessed by **authorized users**
- ✓ GDPR/CCPA compliance
- ✓ Data access levels:
 - **Jobseekers:** Access only their own data
 - **Mentors:** Read-only access to matched jobseekers' data
 - **Admins:** Full access (audit tracked)
- ✓ Data encryption at rest and in transit
- ✓ Regular security audits
- ✓ User consent for data collection and processing

- ✓ Data export and deletion capabilities (Right to be forgotten)

Usability Requirements

NFR-06: Ease of Use

- ✓ The app shall be **easy to use by all users** regardless of technical skill level
- ✓ **Usability standards:**
 - Intuitive navigation with clear labels
 - Onboarding tutorial for first-time users
 - Consistent design language throughout
 - Error messages in plain language
 - Help section and FAQ
 - Tooltips for complex features
- ✓ Maximum 3 clicks to reach any feature
- ✓ Accessibility compliance (WCAG 2.1)

Performance Requirements

NFR-07: System Performance

- ✓ Page load time: < **3 seconds**
- ✓ API response time: < **500ms**
- ✓ Support for **1000+ concurrent users**
- ✓ Real-time message delivery delay: < **1 second**

Non-Functional Requirements Summary

NFR ID	Category	Requirement
NFR-01	Availability	Cross-platform (Android, iOS, Windows)
NFR-02	Availability	99.9% system uptime
NFR-03	Security	Email verification + password authentication
NFR-04	Security	Password protection and hashing
NFR-05	Data Privacy	Privacy policy, authorized access only
NFR-06	Usability	Easy to use for all users
NFR-07	Performance	Fast response times, high concurrency

3 Requirements Traceability Matrix

Requirements Traceability Matrix				
Requirement ID	Category	Description	Priority	
FR-01	Functional	Dual-role login system	High	
FR-02	Functional	Academic records entry	High	
FR-03	Functional	Profile editing capability	High	
FR-04	Functional	Messaging between roles	High	
FR-05	Functional	Mentor access to records	High	
FR-06	Functional	Dashboard information view	Medium	
FR-07	Functional	Notification system	Medium	
FR-08	Functional	Mentor request system	High	
FR-09	Functional	Password editing	High	
FR-10	Functional	CV upload	Medium	
NFR-01	Non-Functional	Cross-platform availability	High	
NFR-02	Non-Functional	System uptime (99.9%)	High	
NFR-03	Non-Functional	Email verification security	High	
NFR-04	Non-Functional	Password protection	High	
NFR-05	Non-Functional	Privacy policy implementation	High	
NFR-06	Non-Functional	Usability for all users	High	
NFR-07	Non-Functional	Performance standards	Medium	

4 Conclusion & Approval

Important Note

This System Requirements Document (SRD) serves as the foundation for the development of the **Career Navigator** application. All functional and non-functional requirements documented here shall be implemented, tested, and verified throughout the software development lifecycle.
